

CNCPro+

CNC Simulator

Realistic learning experience in virtual machining workplace

CNC Lathe

3 Axised Horizontal Machining Center

3 Axised Vertical Machining Center

- ✓ It fully simulates real machine and controller functions.
- ✓ Allows you to receive dangerous trainings safely and without risk.
- ✓ It gives the opportunity to learn different control panels thanks to its various content.

CNCPro+

CNC Simulator

Technology that trains CNC Operator with innovative approach within 1-3 months

Highlighted Features

- ✓ It has a 3D and realistic image.
- ✓ The user interface is quite understandable and easy.
- ✓ It significantly reduces training costs by eliminating machine and consumable expenses.
- ✓ It offers different color and size options for user-defined different CNC machine and its tools.
- ✓ It offers different machine types according to size of workpiece.
- ✓ Trainers can supervise their students in different scenarios.
- ✓ Users receive dangerous training in a risk-free environment.
- ✓ It is very suitable for beginners and those who want to improve themselves on different machines.
- ✓ CNCPro has a team library to provide a better training. There are user-defined sets and additional parts.

Different Controllers

NOTR
(PROCESSING CENTER)

FANUC
(PROCESSING CENTER)

FANUC 18iB5
(PROCESSING CENTER)

FANUC 0iMD
(PROCESSING CENTER)

• CNCPro offers different controllers as Fanuc series and Siemens controllers.

FANUC 31iM-A
(PROCESSING CENTER)

Siemens 840D
(PROCESSING CENTER/LATHE)

FANUC 0T
(LATHE)

FANUC 16iB
(PROCESSING CENTER)

FANUC 21iB
(PROCESSING CENTER)

• Controllers have a soft key and It offers the various functions of a real controller.
